

## Rockwell Part

Rockwell Parts - AxleTech International is a premier provider in the world of specialty vehicle drive-train systems and components along with off highway vehicles. The company prides itself on being its customers' preferred supplier. AxleTech strives to meet and exceed their clients' expectations for delivery, quality, service and technology. They believe in working within an environment which supports the utmost integrity with empowered teamwork, together with a persistent pursuit of results.

AxleTech International is a General Dynamics business. They believe strongly in actively applying principals of ecological safety and stewardship in how they do business. The company has put different programs in place to be able to articulate these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with any questions or comments, as they are happy to promote and share this policy with a greater understanding of their efforts. They are very devoted to improving and preserving the natural environment. AxleTech has an EHS program that not only protects the natural environment but which also actively protects their staff and neighbors also.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in designing and manufacturing planetary axles for both commercial and military applications. These applications range from airport ground support to construction equipment. AxleTech specially designs axles to meet specific application demands. They have over one thousand various axle specs in their present offering. With more than 100+ years of history and knowledge, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The company is well known in many military and commercial applications. They provide complete axle assemblies used for aftermarket replacement needs, along with servicing axle requirements for OE production. Their high mobility ISAS have extra details which can be seen in the "ISAS" product collection.
