

## Spreader Bar for Forklifts

Spreader Bar for Forklifts - ELME has been proudly operating since 1974, becoming the largest independent spreader business all-around the world. They are a devoted manufacturer of spreaders intended for many several applications such as the swop bodies, trailers, and handling of containers.

Engineering is done in-house by means of using all the latest CAD systems and FEM tools. The ELME company now employees over one hundred twenty five employees. Their spreaders are supplied to reach quayside, ship-to-shore cranes, stackers, straddle carriers, lift trucks and gantry across the world.

The ELME product series offers spreaders for various trailer and container handling operations. A few of their inventory comprise: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers plus a wide array of attachments.

Production and manufacturing of ELME products are developed in highly automated purpose designed factory. In the year 2008, they created one thousand one hundred fifty spreaders by way of using quality parts to be able to ensure dependability and top standards. Major characteristics of ELME consist of design simplicity, market feedback and ground-breaking modular spreader concept.
