

Concrete Hopper

Concrete Hopper - The self-dumping hopper accessory could automatically activate to both dump and release as soon as the bumper release touches the side of a dumpster. As soon as unloading is completed, the hopper could return to original upright and locked position. This piece of machinery is also obtainable with a cable that allows operation from the seat of the forklift to be able to have the option of manually dumping the hopper. There is a locking chain provided to secure the hopper to the tire truck. This particular product is made with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper also has a blue powder coat finish so as to maintain durability.
