

Meritor Part

Meritor Parts - Meritor is a premier international dealer that is proudly founded on a one hundred year custom of service and quality. They specialize in different modules, integrated systems and parts to original machinery manufacturers and the aftermarket for the industrial and transportation trades.

Meritor prides itself in the company's unique energy and feels that this energy contributes to their competitive advantage within the worldwide operations. The company values all of their clients and wants to ensure their success while anticipating their different needs. Meritor begins with a culture that values diversity of people and their broad thought processes. Operating in 19 countries and employing more than 11,200 people, Meritor encourages innovation and collaboration among a team of knowledgeable professionals.

Meritor strongly believes in just employing future focused staff. These top-caliber workers can rapidly get used to to changing surroundings and freely exhibit the level of performance and commitment needed so as to get results for the competitive market environment. The business empowers their teams to make sound business decisions so as to enhance the overall success of the business. In return, Meritor provides all of their employees different chances for personal and professional development.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises drivelines, axles, suspension and braking systems designed for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is even responsible for supporting the needs of all their international engineering workers.

The Quality team at Meritor is a dynamic and customer-focused group who is devoted to ensuring optimum growth at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 nations.

The supplier development network is specially located in order to support new business growth. Regional teams are supported by global initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in each and every part of the trade. The DFSS or also referred to as Design for Six Sigma ensures product reliability within every region. The team is likewise comprised of transactional Green Belts who use Six Sigma tools to business processes and implement lean techniques.
